RE: Complaint re: Task #9 FON Declaration

Zerek

Upon further detailed review of your declared and 'intended' declared coordinates along with a review of those locations on the competition map with your actual flight path overlay, I have determined that you most likely made an inadvertent transposition of two Easting fields. It further seems apparent that you would not have been able to achieve your declared mark given the winds available for steering at the time of your flight. The 100 point task penalty for inappropriate but unambiguous declaration will be applied to your result.

Updated results were published effective 2147 and amends your previous result of 1688 meters to 155 meters with a 100 point task penalty.

I trust this will close this matter.

Sincerely,

Maury Sullivan
Event Director
Rio Grande Classic
