First off, I want to say thank you for the assistance you have given me and your service as balloon director for the sport!

1.) On the Watch me Fly app I am on the competitors list.

2.) I applied as a competitor with my BFA number.

3.) The Blue Balloon sensor would not come up and I asked you for assistance yesterday. You tried to make it work but it would not work and you offered assistance at another time.

4.) The trouble I learned with the sensor was that I was not provided with a token.

5.) Once the token was provided, I purchased the event and it appeared to be working and I launched.

6.) I do not believe that penalties 6.B.3 and 6.13.2 were designed with thoughts that a competitor did not receive the token until the launch period had opened and that the sensor would not initialize without the token. They were written for another purpose.
