II. 6 LANDOWNER'S PERMISSION (9.2.2)

Additionally to Rule 9.2.2 the following applies: A take-off without permission may be made from minor roads or tracks (only roads and tracks that are shown on the official competition map!), if the balloon envelope can be laid out in the adjacent field and provided, it is freshly harvested and/or not cultivated and no damage is done. The road traffic may not be obstructed.

This applies to both rules 9.2.2 and 11.6 (Landowner Permission)

Take-off and landings will be observed, not only by tracks.

Penalties up to 250 task points!

II.12 GOALS SELECTED BY A COMPETITOR

- Delete “yellow”

II. 12 GOALS SELECTED BY A COMPETITOR (12.2), GOAL CENTER (12.1)

In this competition, only target crosses and "virtual" goals are used. To identify a virtual goal, the competitor must declare it as written in the Task sheet. No goal selected by a competitor shall be within blue, yellow or red restricted areas.

General Clarifications

- All markers not listed on the task sheet are unauthorized markers according rule 12.5
- If the pilot does not declare an altitude, the altitude is automatically calculated at the altitude separation line of 1,500 ft
- ALL declarations are valid and will be scored based on the percentage of infringement. Only declarations made outside the competition map are invalid.
If a clearly defined limit (e.g., declaration BEFORE a grid line) or time (before the start/green flag) has been specified and this is violated, the declaration is invalid.
- A physical marker is valid, when it's within the given time/scoring period ON the ground.
- Targets are displayed within 100m around the goal coordinates.
- No cars within 100m around a displayed target!
- Don't block roads or drive dangerous!

Lost marker costs 20 Euro!
