

Pilot 33

12/8/26

18:45

I have explained that yesterday I asked for clarification on my score for task 3.

A written request was submitted last night (11/8/26)

I spoke to the scores this morning after the flight - I was told that they were still thinking. So far I have had no clarification

This evening the results have become official which I understand cannot be done until my clarification has been dealt with

I wish to protest ~~to~~ about this and will submit a full protest within the time limits available
