## Dangerous flying

The following limitations will be checked at each flight.

The limits apply to a certain difference in vertical speed at a 3D-distance between balloons.

- Limit 1: more than 3m/s at less than 25m
- Limit 2: more than 5m/s at less than 50m
- Limit 3: more than 8m/s at less than 75m

**An additional limit will be applied to the absolute vertical speed of a pilot:**

- Limit 4: more than 8m/s vertical ascent speed**

*Note: This limit must be violated for a consecutive 5s or more to be penalized.*
