

Sam,

I am filing a complaint regarding the cancellation of Task #1 on June 11 at 07:57. The task data sheet included 4 Tasks all with a scoring period close time of 09:00, however, only one of the tasks was cancelled. Depending on the strategy and flight plan of a competitor, this provided an unfair advantage to some pilots depending on what tasks they had completed by 07:57. Competitors were still permitted to continue to score on Tasks 3, 4, or 5 but I was prevented from completing Task 1 during this same time. I respectfully request that ALL tasks with a closure period after 07:57 be cancelled in Flight #1.

Respectfully,

Phil Clinger
