

Paul J. Petrehn

2825 Clivedon Rd • Howell, MI USA 48843
(505) 948-0944 • paulpetrehn@gmail.com

History

Paul Petrehn was born into a ballooning family in 1974. As the youngest of eleven siblings, six are licensed hot air balloon pilots. Paul's father, John Richard (1934-1990), previously held FAI distance and duration records for balloon sizes AX-6 to AX-9. His 1988 attempt to fly around the world from Mendoza, Argentina never got off the ground as the balloon was damaged during the inflation process.

Paul crewed competitively for many years before receiving his private pilot certificate in 1993 and his commercial rating in 1995. He started flying competitive events in 1995 and organizing competitive flights in 2004. Paul has served as Balloonmeister, Event Director or Juror at state, regional, national and international events since 2010.
